Scorer:

Attest:

10

**TENISON TURF** - Play short of the menacing fairway bunker to set up a short iron approach. Green wraps around an inviting bunker.

11

**CROSSROADS** - Drive long down the left side for the best view into this dogleg right hole. The road to birdie carries you over the fairway bunker on your second and turns into a picturesque green.

12

**DEAD AIM** - A classic driving hole. Keep your drive in the fairway to have a chance at tough pin placements behind either bunker protecting the green.

13

**AUGUSTA** - A beautiful par 3 is the beginning of a great finish at Tenison Highlands. Sycamore trees frame your tee shot to a two-level green sitting on the edge of the lake. Short is not an option.

14

**COTTON BOWL** - Drive from a chute of cottonwood trees to a receptive fairway. Bowl shaped green setting frames uphill approach to a split-level green set in the Highlands.

15

**MONET** - Photo opportunity. Two fairway bunkers on the right put the final touches on one of Mother Nature's masterpieces. Pretty as a painting!

16

**WHISPERING OAKS** - Listen as the leaves tell you this could be the last birdie opportunity. Take advantage with a drive up the left side. Go for it over the right fairway bunker or lay up short of the left bunker.

17

**BOBCAT CROSSING** - Angled green favors left to right tee shot. You might catch a glimpse of a bobcat crossing your path into the woods.

18

**WEIBRING VALLEY** - D.A. may have saved the best challenge for last with this strong par 4. Drive close to fairway bunker for the best view to a well-bunkered green tucked into the hillside.
